Arindam Pal

Senior Solution Architect @ IBM | Enterprise Transformation | AI Platforms | Cloud Modernization
Jamison, Pennsylvania, United States

Summary

Result-oriented Senior Solution Architect with 21 years of experience specializing in Cloud Modernization, Microservices, Digital Enablement and Enterprise Strategy. Proven track record of defining architectural roadmaps for Fortune 500 clients like Ulta Beauty and Tiffany & Co., aligning complex technical designs with business ROI and operational cost optimization. Expert in leading global, multi-disciplinary teams through the full SDLC, from initial discovery and R&D to deployment and post-production support. Demonstrated ability to mentor junior architects and enforce high-standard architectural guidelines across diverse technology stacks including Azure, GCP, Java Spring Boot, and .NET.

Strategic Key Skills

- Architecture & Strategy: End-to-End Roadmap Development, MACH Architecture, Domain-Driven Design (DDD), Event Driven Architectures, and TOGAF principles.
- Cloud & Infrastructure: Advanced management of Azure (App Service, AKS, APIM, FrontDoor) and GCP (GKE, Pub/Sub, Apigee) with a focus on high availability and scalability.
- Leadership & Governance: Project Estimation, Global Team Management, Technical Stakeholder Communication, and System/Functional Specification Authoring.
- API & Integration: Design of secure, well-documented RESTful Microservices and Headless Commerce integrations using Java Spring Boot. NodeJS, .Net Core connecting various heterogeneous enterprise application like Sterling commerce, SAP S4 Hana, Adobe Experience Cloud etc.
- Performance & Quality: Implementation of SonarQube for code quality, Event-Driven Architectures (Google Pub/sub, Azure EventBus, RabbitMQ), and RDBMS/NoSQL optimization (SQL Server, MongoDB, PostgreSQL)

- **Cost Optimization:** Reduced operational overhead through the strategic selection of Azure/GCP serverless resources and container orchestration via GKE/AKS.
- **Mentorship:** Acted as the primary technical mentor for a global team of 20+ developers and junior architects, conducting regular code reviews and establishing standardized UML and C4 modeling guidelines.
- **Security & Documentation:** Authored comprehensive system specifications in Confluence, ensuring all microservices-based APIs met rigorous security and testing acceptance criteria.

Experience

IBM

18 years 3 months

Senior Solution Architect

July 2021 - Present (5 years 3 months)

Jamison, Pennsylvania, United States

Summary of Current Engagement Experience

- Created the architectural roadmap for the solution design, build and deployment of various enterprise application for Tiffany and Ulta Beauty.
- Specialized in integrating client e-commerce platform with Ordergroove SaaS platform for recurring orders.
- Specialized in customizing Ordergroove Subscription Manager as per the client need.
- Designed integration with CommerceTools and Tiffany's Sales system for headless commerce implementation as part of Cloud Modernization using MACH Architecture.
- Specialized in designing Microservices frameworks to interact with Sterling OMS & SIM module, SAP S4 HANA/CAR/BTP.
- Extensive experience in designing and implementing microservices framework based of .NET Core, .NET 6, Java Spring Boot
- Specialization in designing customized UI frameworks for Digital Commerce based applications
- Experience in managing various Azure resources like App Service & web jobs, Azure Storage, Azure Key Vault, Azure Redis cache, AKS, etc.
- Experience in managing various GCP resources like GKE, Pub/Sub Topic, Secret Manager, GCP Redis cache, etc.

- Experience in various RDMS or No SQL DB like SQL Server, Oracle, PostgreSQL, Mongo DB
- Proficient in analyzing and translating business requirements to technical requirements and architecture. Authored system and functional specifications specified testing objectives and acceptance criteria using Jira and Confluence.
- Also responsible for project estimation, technical solutioning, taking architectural decisions and building project framework, macro and micro design activities and managing teams across the globe.

Application Architect

January 2013 - July 2021 (8 years 7 months)

Parsippany, Nj

Advisory System Analyst

July 2008 - December 2013 (5 years 6 months)

Dell

Sr. Software Development Engineer

January 2006 - July 2008 (2 years 7 months)

SPRY Resources India Pvt. Ltd.

Systems Engineer

February 2005 - January 2006 (1 year)

Suvarna Technosoft Pvt. Ltd.

Senior Software Engineer

June 2003 - January 2005 (1 year 8 months)

Education

Shri Ram Murty Smarak College of Engineering and Technology,
Bareilly

Master of Computer Applications (MCA), Computer Science · (June
2000 - May 2003)

Ramakrishna Mission Residential College, Narendrapur

Bachelor's degree, Statistics · (1997 - 2000)
